1. Bug Report: Points Bug Fix

Title: Points Not Updating Correctly

Description: The application failed to correctly update the points balance after task completion, affecting the functionality of the points reward system.

Severity: High

Steps to Reproduce: 1. Complete a task known to reward points. 2. Check the points balance for updates.

Expected Outcome: The points balance should update immediately to reflect new points.

Actual Outcome: The points balance did not update or was delayed.

Commit Details: ID: 1a3af58, Date: April 23, 2024, Author: eshana, Description: "fixed the points bug"

2. Bug Report: Profile UI Bug Fix

Title: UI Display Issues in User Profile

Description: Users experienced display issues within the profile UI, such as overlapping elements or incorrect data presentation, which could confuse or mislead users.

Severity: Medium

Steps to Reproduce: 1. Log into the application. 2. Navigate to the user profile page.

Expected Outcome: User profile details are displayed correctly without any UI issues.

Actual Outcome: Profile UI showed overlapping elements or incorrect information.

Commit Details: ID: ec21882, Date: April 23, 2024, Author: eshana, Description: "fixed the bugs in profile UI"

3. Bug Report: Shop Part Bug Fix

Title: Shopping Feature Malfunction

Description: The shopping part of the application was not functioning correctly, potentially due to issues with item listings or the purchasing process.

Severity: Medium

Steps to Reproduce: 1. Navigate to the shop section of the application. 2. Attempt to view items or make a purchase.

Expected Outcome: Items should be listed correctly, and purchases should proceed without error.

Actual Outcome: Users were unable to view items properly or encountered errors during the purchase process.

Commit Details: ID: acb2d2e, Date: April 23, 2024, Author: eshana, Description: "fixed the shop part"

These bug reports provide a structured way to understand the issues that were encountered and resolved, detailing the severity, impact, and the actions taken to address the problems as recorded in the commits.
